ASPIRING CYBERSECURITY PROFESSIONAL

ram@hackthenorth.ph

Makati, Metro Manila

linkedin.com/in/ukfn

OBJECTIVE

Entry-level cybersecurity professional with hands-on VAPT experience, seeking a full-time role in offensive security or vulnerability assessment to apply practical penetration testing skills and continue growing within a security team.

TECHNICAL SKILLS

Security Testing Tools

Burp Suite, Nmap, Metasploit, Nikto, OpenVAS/GVM, OWASP ZAP, WPScan, Wireshark, Hydra

Platforms & Environments

Kali Linux, DVWA, OWASP Juice Shop, HTB Academy, TryHackMe

Core Domains

Web App VAPT (OWASP Top 10), Vulnerability Assessment & Reporting

Development

Python, Bash, FastAPI, Docker

EDUCATION HISTORY

Bachelor of Science in Computer Science

Saint Mary's University

2023 – Present

- Served as a 2nd and 3rd Year Representative, acting as a liaison between students and faculty to resolve academic concerns while coordinating logistics for seminars and coding workshops.

TVL – Information and Communication Technology

Saint Mary's University

2023

- Completed a 40-hour Work Immersion program at PLGU NV – IT Department, where I assisted in IT support.

PROFESSIONAL EXPERIENCE

Red Team / VAPT Intern

Tambuli Labs

2026 – Present

- Completing a 200-hour OJT internship in offensive security under senior security engineer mentors, assigned real client Vulnerability Assessment and Penetration Testing (VAPT) engagements.
- Led a full grey-box VAPT engagement against a production web application (Django REST API, Keycloak IAM, and Nginx reverse proxy), independently handling reconnaissance, enumeration, and exploitation.
- Identified and documented 10 findings including 2 Critical-severity vulnerabilities, covering a misconfigured identity-provider administrative account and an unauthenticated endpoint that allowed unauthorized data modification.
- Authored a full professional VAPT report with findings, severity ratings, and remediation recommendations for client delivery.
- Maintained OJT Daily Record of Activities documentation in compliance with Saint Mary's University's 200-hour internship requirement.

ACHIEVEMENTS

DICT Regional Hack4Gov 4 Competition

2025

- Held in Cagayan State University – Andrews Campus
- Competed as part of a 4-member team in a regional cybersecurity competition
- Contributed to solving CTF challenges and real-world security scenarios

LEADERSHIP & ACTIVITIES

HackTheNorth

2025 – Present · Member

- Participated in cybersecurity workshops, CTFs and community events

Marian Integrated Computer Organization – Junior Philippine Computer Society

2024 – Present · Liaison

- Represent Computer Science students in organizational meetings and planning
- Organized and facilitated seminars, coding workshops, and student activities
- Coordinated event logistics, documentation, and communication initiatives
- Assisted in organizational projects and promotion of events and student engagement activities

CERTIFICATIONS & ELIGIBILITY

Fortinet Certified Associate in Cybersecurity

Earned June 2, 2026

- Strengthened understanding of core cybersecurity principles, threat intelligence, and security awareness
- Gained knowledge of network security, endpoint security, cloud security, and security operations concepts

Hack The Box – Certified Penetration Testing Specialist (CPTS)

In Progress

- Actively completing the CPTS path, covering enumeration, web exploitation, Active Directory attacks, and reporting

Pre Security Learning Path – TryHackMe

- Completed introductory cybersecurity training and hands-on labs (May 2026)
- Actively developing cybersecurity and networking skills through hands-on exercises and learning paths on TryHackMe

Civil Service Professional Eligibility (CSPE)

- Passed March 2026, Civil Service Commission (CSC), Philippines
